ABOUT ALS

Amyotrophic lateral sclerosis (ALS), often referred to as "Lou Gehrig's Disease," is a progressive neurodegenerative disease that affects nerve cells in the brain and the spinal cord.

Motor neurons reach from the brain to the spinal cord and from the spinal cord to the muscles throughout the body. The progressive degeneration of the motor neurons in ALS eventually leads to their death. When the motor neurons die, the ability of the brain to initiate and control muscle movement is lost. With voluntary muscle action progressively affected, patients in the later stages of the disease may become totally paralyzed. As motor neurons degenerate, they can no longer send impulses to the muscle fibers that normally result in muscle movement.

Early symptoms of ALS often include increasing muscle weakness, especially involving the arms and legs, speech, swallowing, or breathing. When muscles no longer receive the messages from the motor neurons that they require to function, the muscles begin to atrophy (become smaller). Limbs begin to look "thinner" as muscle tissue atrophies.

ABOUT THE ALS UNITED WALK

Unity will be at the core of the ALS United Walk experience. Although each participant has a unique story that brings them to the ALS United Walk, their motivation is the same - to end ALS. To end ALS for someone they love, for their friend, or so that no one else has to suffer through this disease. Only through the power of unity, can this goal be achieved.

SHARE YOUR UNITY

At the Walk, sign our 2025 ALS United Walk Banner. Add the name of the person you Walk for and a sticker representing your connection to ALS.

ALS UNITED TENT

At ALS United Mid-Atlantic, people with ALS come first in everything we do.

With this in mind, we created a special tent for people with ALS. The ALS United tent will be a place to learn more about available programs and resources. Our experienced care team members will be available to assist ALS families.

SHOW YOUR UNITY

Pick which color best represents you and hold your sign throughout the Walk to show your commitment to End ALS.

- **Living with ALS** -- Blue represents someone living with ALS.
- **United in Support** -- Orange represents those who love or support a person living with ALS.
- **United in Advocacy** - Yellow represents those who advocate for ALS research, care, and caregiver support.
- **United in Caregiving** - Green represents those who are or have been caregivers to someone living with ALS.
- **United in Memory** -- White represents those who honor the memory of someone who lived with ALS.

ABOUT THE ALS UNITED WALK

On behalf of our staff at ALS United Mid-Atlantic, thank you for registering for a Walk! The ALS United Walk is the single largest fundraising event our organization holds each year. ALS United Mid-Atlantic hosts seven walks throughout our service area. In 2024, our Walks raised over \$900,000 to support patient services second to none, cutting-edge research, and advocacy at state and federal levels.

The Walk is an opportunity for our community to come together and celebrate. Celebrate with your friends and family as you enjoy music, food, and fun.

The ALS United Walk offers our community the opportunity to:

- Join in the fight - Donations from the Walks enable our organization to continue to provide programs to serve people with ALS and their families.
- Meet others in your area - The Walk is a great chance for people with ALS to come out and meet other families in the area who are living with ALS.
- Spread Awareness - Tell others about the Walk and encourage them to participate. As more people learn about our mission and our efforts to unite against ALS, we stand a better chance of succeeding!

As always, please feel free to contact us if you have any questions about this year's Walk.

Thank You!
